

# Employer Transit Pass Credit

## Tax Expenditure Initial Review - TEB 2.28

### Tax Expenditure Facts

Year Enacted	2000
Statute	Minn. Stat. § 290.06, Subd. 28
Tax Type	Corporate Franchise Tax
Provision Type	Credit
Latest Fiscal Impact Estimate	\$900,000 – Fiscal Year 2024
Latest Claims Estimate	Direct measure of this estimates is not available
Expiration Date	None

### Tax Expenditure Description

A nonrefundable credit is allowed against the corporate franchise tax equal to 30% of the expense incurred by the taxpayer to provide transit passes to the taxpayer's employees. The transit pass must be for use in Minnesota. If the employer purchases the transit passes from the transit system and resells them to the employees, the expenses used for the credit are the difference between the amount the employer paid for passes and the amount charged to employees.

### Proposed Tax Expenditure Objective for Consideration

The objective of the Employer Transit Pass Credit is to incentivize Minnesota employers to subsidize transit passes for their employees to encourage the use of public transit.

### Sources

The tax expenditure objective is based upon audio hearings for standalone companion bills pertaining to the Employer Transit Pass Credit for HF723<sup>i</sup> and SF813<sup>ii</sup> from the 1999 session.

### Other Considerations Regarding the Proposed Tax Expenditure for Consideration

Several policy objectives were discussed in testimony or were identified through other sources beyond that stated in the tax expenditure objective. During testimony, it was mentioned that by incentivizing employers to provide transit passes to employees, that could help alleviate traffic congestion, reduce the need for or reduce the wear-and-tear on highways and roadways, and address parking scarcity issues in densely populated urban areas.

Additionally, it was mentioned that such a tax credit would help connect employers to a broader talent pool of employees, particularly those who desire more economical transportation and parking options.

At the federal level, Executive Order 13150, mandated that all Federal agencies in the National Capital Region implement a transportation subsidy program by October 1, 2000. The Internal Revenue Service's (IRS) Public Transportation Subsidy Program (PTSP) was established to encourage employees to use public transportation when commuting to and from work to improve air quality, reduce traffic congestion, and conserve energy by reducing the number of single occupancy vehicles on the road.<sup>iii</sup>

The Commission may want to consider these policy objectives in addition to or in place of the proposed tax expenditure objective stated above.

### **Potential Metrics and Performance Measures**

Possible evaluations and measures of this tax credit could include a historical look at utilization trends of the tax credit as well as an analysis of public transportation routes designed to address user demand from employers utilizing the tax credit. Beyond that, survey data from businesses using the tax credit could provide insight into its usefulness and in evaluating its impact in expanding the available labor force or measure possible impacts on employee retention as a result of providing this transportation option for employees.

### **Contact Information and Disclaimer**

This tax expenditure review was prepared by the Legislative Budget Office for the Tax and Expenditure Review Commission pursuant to [Minnesota Statute 3.8855](#).

Notice: Proposed tax expenditure objective statements are not binding authority and should not be used as a legal interpretation of any tax expenditure statute.
