Members of Tax Expenditure Review Commission (TERC)

Dear TERC Members:

I write in strong support of renewing and expanding the State Housing Tax Credit program. At a time when affordable and accessible housing is out of reach of so many Minnesotans, this program has been a critical resource that enables Minnesotans to make a direct investment in supporting the creation or preservation of critical affordable housing while also recovering much of that investment in a tax credit on their state income taxes.

For Weis Builders, this has been an important way for us to give back to the community and help deliver tangibly and powerfully a key development in the community. To date, we have contributed substantially over the active years of this program and anticipate continuing to participate.

I also know that many others in the community should have access to this resource and with interest in the program far outpacing resources in the program, Minnesota should revisit expanding this program to continue expanding housing opportunity for our residents.

Thank you for your consideration,

Chad Weis
