Bill Description

Senate File 3719/House File 3411 extends by ten years the agricultural fertilizer research and education fee, the Minnesota Agricultural Fertilizer Research and Education Council, the Minnesota agricultural fertilizer research and education program, and the agricultural fertilizer research and education account by amending Minnesota.

Statutes 2022, sections 18C.70, subdivision 5; 18C.71, subdivision 4; 18C.80, subdivision 2 and Statutes 2023 Supplement, section 18C.425, subdivision 6.

Section 1 amends the expiration date to June 30, 2034.

Sections 2,3,4 amend the expiration dates to June 30, 2035.

Assumptions

The Agricultural Fertilizer Research and Education Council (AFREC) and the associated funding provided by a forty cent per ton fee on all fertilizer sales were established to ensure that farmers and ag professionals have access to high quality soil fertility recommendations, development of decision tools, and educational programing. AFREC provides research priorities and is responsible for awarding the funding allocations. The MDA receives an annual allocation from this dedicated account which is used for a variety of fiscal and organizational services in support to AFREC.

MS 18C.80 establishes an account in the agricultural fund. Money in the account, including interest earned, is appropriated to the commissioner for grants determined by AFREC under section 18C.71. The commissioner may use up to \$80,000 each fiscal year for direct costs incurred to provide fiscal and administrative support to the council. The commissioner may also recover associated indirect costs from the account based on our approved agency rate. Estimated indirect cost rate is 15% for fiscal years 25-27.
