

Potential LBO Oversight Commission Future Meeting Topics

LBO Updates

This topic will include general office updates regarding the work of the office as well as any requests to the oversight commission for approval of modifications to the Uniform Standards and Procedures.

Fiscal Estimates

This topic was identified during the public comment period for the Uniform Standards and Procedures. It could include an overview of the types of fiscal estimates that fiscal analysts and agencies may work to develop.

Secondary Costs and Dynamic Scoring

This topic was identified during the public comment period for the Uniform Standards and Procedures. It could include an overview of the current standard, information from NCSL and a discussion on the advantages, disadvantages and complexity associated with secondary costs and dynamic scoring.

Information Technology Costs

This topic was identified during the August 23, 2019, LBO Oversight Commission meeting. Areas of interest included long-term cost considerations and developing awareness of the work of the MNIT Blue Ribbon Commission.

Costs Associated with FTEs

This topic was discussed during the LBO focus group sessions conducted in June and July. The LBO will be organizing meetings prior to the 2020 Legislative Session with agencies and fiscal analysts to develop a better understanding of agency methodologies used to identify costs associated with FTEs.

Absorbed Costs

This topic has been identified as part of the development of the Uniform Standards and Procedures. It could include a presentation of different examples where agencies identified absorbed costs and factors to consider when agencies do and do/not identify costs that can be absorbed.
