Comments:

"The objective of these is to create jobs and incentivize the growth of an industry. It appears that the expenditure isn't clearly doing that. According to the surveys in the evaluation, many business owners are unaware of the credit or new businesses could find it hard to enter the industry to use the credit.

There could also be a policy created to encourage more business in this industry through a direct expenditure."

This seems like an expenditure that needs a revamp to ensure Minnesota is competitive in this industry.

"Continue unless burden has tax cuts - then repeal"

"The effectiveness of this tax expenditure seems difficult to measure, nor is it clear if jobs are maintained/created by this benefit."

"Could go to quarterly filings instead of monthly filings."
